ABOUT LANTANA

Lantana is known for its rapid growth and prolific production of rounded clusters of small, brightly colored flowers. These flowers come in a variety of hues. Lantana is often used in hanging baskets or as ground covers. This versatile plant thrives in sunny locations and requires minimal maintenance, making it a great choice for any garden.

WATER

Do not let soil dry out between waterings

LIGHT

Full sun, 6+ hours per day

BLOOM TIME

Summer – Fall

MATURE SIZE

20–26 in. tall,
24–36 in. wide

FERTILIZATION

Fertilize with a balanced fertilizer once per month.

Always follow package instructions.

SOIL

Can tolerate many soil types. Prefers fertile, well-draining soil.

FUN FACT:

Lantana not only adds beauty to your garden, but it also serves as a natural mosquito deterrent. Plant in pots on your porch or outdoor living spaces for a more enjoyable outdoor environment.
