ABOUT CACTI & EUPHORBIA

There are thousands of different varieties of cacti and euphorbia, coming in all shapes, sizes, and colors. These plants are exquisite in nature, have very similar care requirements, and are all extremely hardy, being native to harsh growing conditions.

WATER

Allow the soil to dry completely between waterings.

LIGHT

Direct sunlight

SOIL

Well draining potting mix

PET SAFE?

Mildly toxic

FERTILIZATION

Use cactus-specific fertilizer every three months during the growing season. Do not fertilize during the winter.

HUMIDITY

Low
(10%-40%)

IMPORTANT NOTES:

Cacti and euphorbia are hardy plants that often thrive on neglect. Requiring minimal water and very little attention, these plants are the perfect low-maintenance, easy care plants. Be sure not to overwater, as they are susceptible to root rot.
