ABOUT ECHINACEA

Echinacea, also known as Coneflower, is a beautiful and resilient addition to any garden. With its daisy-like blooms and sturdy stems, Echinacea adds beauty effortlessly. It comes in various colors such as purple, pink, and white, and thrives in many conditions. Echinacea is perfect for attracting pollinators or just adding a pop of color to a garden.

WATER

1-2x per week

LIGHT

Full sun to part shade

BLOOM TIME

Summer - Fall

MATURE SIZE

3-4 ft. tall, 1-3 ft. wide

SOIL

Tolerant of most soil types. Prefers fertile, well-draining soil.

FERTILIZATION

Add a layer of compost in the spring.

ATTRIBUTES

Attracts Birds

Drought Tolerant
Once Established

Attracts Butterflies

Attracts Pollinators

Cut Flower

Xeric

FUN FACT

Refrain from cutting back your Echinacea until spring, as birds love to feast on the seeds during the winter months.
